William Stimpson Stricken with Pa ralysis of His Lower Limbs-Caused by Overwork.

From the New Era Greensburg, Ind. Many of our readers may remember an item in this paper a year ago last fall which stated that Mr. William Stimpson, a well-to-do farmer, living near Rugby. Ind., had been stricken with paralysis of the lower limbs, and his recovery was

The case, which was an unusually severe and complicated one, has at last been energy cured, to the utmost surprise and joy of Mr. Stimpson and his family.

family.

Mr. Stimpson was pleased to relate to a reporter the particulars regarding his case, and his subsequent recovery.

"A year ago last fall," began Mr. Stimpson, "I did a large amount of work. My hired help left me in the middle of corn cutting and I finished the fall work myself, doing an unusually large amount of work. I put up several hundred shocks yself, doing an unusually large amount work. I put up several hundred shocks fodder, and also busked all my corn. accomplish this I had to work early

"About the first of December, as I was "About the first of December, as I was getting my fall work about done, I suffered a stroke of paralysis, which the physician said was brought on by excessive labor. My left limb was entirely heipiess and my right limb was fast becoming so. My physician became uneasy, and after attending upon me for a week or so he brought me a box of Dr. Williams' Pink Pills for Pale People, saying that he believed they would do me more good than anything which he knew of, as he had used them with great success in a case ed them with great success in a case

was noticed, and when I had taken two more boxes we discovered that I was ac-tually getting well. You can probably imagine what a relief and feeling of glad-ness this was to me, after being confined to my bed for nearly two months. Well, I kept on taking the pills according to directions, until I had consumed nine boxes rections, until I had consumed nine boxes of them, which completely cursed me.

"I am sound and well to-day, with not a sign of the returning affliction and can affirm that Dr. Williams' Pink Pills for Pale People did me a wonderful good and probably saved me from the grave."

To allay all doubt as to the truth of his statement, Mr. Stimpson made out the following sworn affidavit:

Rugby, Ind., Feb. 2, 1897.

"This is to certify that I do hereby swear that the foregoing statement is ab-

swear that the foregoing statement is absolutely true. "WILLIAM STIMPSON."

ana, ss. Sworn to and subscribed before me, a Sworn to and subscribed before me, a Justice of the Peace, in and for said county in said State. ABNER NORMAN. The New Era was also infortaed that Mrs. Charles Williams, of the same neighborhood, had been cured of rheematism, and Henry Johnson, of Hartsville, who was troubled with neuralgia, was also cured by Dr. Williams' Pink Pills. It seems that this remedy is in great demand in that neighborhood.

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the Dr. Williams Fink Fills for Fale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. These pills are sold in boxes (never in loose bulk) at 50 cents a box or six boxes for \$2.50, and may be had of all departs or direct by mail from the

druggists, or direct by mail from Dr. Williams' Medicine Company, Schenec-tady, N. Y. His Eight-Tandem Team.

Walter Morosco of San Francisco has eight tiny Shetland ponies which are creating a big sensation. They are fast trotters, every one. The team is the most unique in the driving line which the city has seen. The ponies were bred on the Haggin ranch at Bakersfield, and, as a lot, are the smallest pieces of horseflesh ever harnessed together. Their average height is thirtyeight inches and their weight some thing under 350 pounds. The carriage which Mr. Morosco uses is a creation of his own. It is a brass-mounted affair. with low running gear. It was built with the idea of combining the most The harness used differs from the regular eight-tandem harness, inasmuch as there are but eight lines used, four on a side, instead of the usual sixteen. In order to burden the team as little as possible the lines are but half an inch in width,-St. Louis Star.

There Is a Class of People Who are injured by the use of coffee. Recently there has been placed in all the grocery stores a new preparation called GRAIN-O, made of pure grains, that takes the place of coffee. The most delicate stomach receives it without dis tress, and but few can tell it from coffee. It does not cost over one-fourth as much. Children may drink it with great benefit, 15c, and 25c, per package. Try it, Ask for GRAIN-O. Ostriches in Russin.

Ostriches, which are supposed to ourish only in very warm climates, ave been raised successfully in southern Russia, the feathers being of good quality and the birds healthy.

Dyspepsia, constipation, rheumatic, liver and kidney trouble are conquered by the Bitters.

She Practices Law.

Miss Lutie A. Little, a bright young negress, of Topeka, Kan., was admitted to the Memphis bar recently and has already begun to practise. Miss Little is as handsome as she is bright and clever, and great things are expected from her. She is twenty-two years old and a graduate from a law school of Nashville, Tenn., in which State she was born, though her parents removed to Kansas when she was quite a calld. Her father, who is a man of means, spared no expense in her education, and she is the first colored woman of the South who has begun regular practice in a court of record. Miss Litt'e is said by her friends to be the most eloquent young woman they have even

Praised for Poverty, Though Rich. An awkward slip was made by the coadjutor of the Archbishop of Cambrai, who preached a beautiful sermon over the body of his vicar general, praising the great charity of the man, who had entered the priesthood poor and had died still poorer. The next day the vicar general's will was made public. After dividing 900,000 francs among his brothers and nephews, he left 450,-000 francs to the Archbishop, the money being his savings while in office.

MRS. LYNESS ESCAPES

The Hospital and a Fearful Operation.

Hospitalsingreatcities are sad places to visit. Threefourths of the patients lying on those snow-white beds are women and girls. Why should this be the case? Because they have neglected themselves! Women

as a rule attach too little importance to first symptoms of a certain kind. If they have toothache, they will try to save the tooth, though many leave even this too late. They comfort themselves with the thought that they can replace their teeth; but they cannot replace their internal organs! Every one of those patients in the hospital beds

had plenty of warnings in the form of bearing-down feelings, pain at the right or the left of the womb, nervous dyspepsia, pain in the small of the back, the "blues," or some other unnatural symptom, but they did

Don't drag along at home or in the shop until you are finally obliged to go to the hospital and submit to horrible examinations and operations! Build up the female organs. Lydia E. Pinkham's Vegetable Compound will save you from the hospital. It will put new life into you. The following letter shows how Mrs. Lyness escaped the hospital and a

fearful operation. Her experience should encourage other women to follow her example. She says to Mrs. Pinkham:

"I thank you very much for what you have done for me, for I had given up in despair. Last February, I had a miscarriage caused by overwork. It affected my heart, caused ne to have sinking spells three to four a day, lasting sometimes half a day. I ould not be left alone. I flowed constantly. The doctor called twice a day

for a week, and once a day for four weeks. then three or four times a week for four months. Finally he said I would have to undergo an operation. Then I commenced taking Lydia E. Pinkham's Vegetable Compound, and

after one week I began to recover and steadily improved until I was cured completely. By taking the Pinkham medicine, I avoided an operation which the doctor said I would certainly have to undergo. I am gaining every day and will cheerfully tell anyone what you have done for me."-Mrs. Thos. LYNESS, 10 Frederick St., Rochester, N. Y.

THE GARRET CLATTER.

I don't hear the young folks patter Like they used to long ago Up the stairs to raise a clatter Underneath the rafters low. What's the reason things is stiller Since the young folks went away-John an' Joe an' sweet Permiller?

In the way it used to come;

'T only seems as if the pushin'

Jist the days seem draggin' weary

Like a long an' dismal moan.

Tire 'em out an' raise a lark.

When the bumblebees was droonin'

An' the flowers was in bloom,

With the scent of its perfume,

Then the young folks used to patter

Seems to me I'm sometimes dreamin

An' the lilac bush was groanin'

Up the stairs a-long ago-

Up the stairs to raise a clatter

Underneath the rafters low

Of the things that used to be,

Back ag'in to you an' me.

Till the old life comes a-streamin'

Then I hear the young folks patter

Up the stairs they used to go,

There to raise a garret clatter

NASHVILLE EXPOSITION ENDS. Ringing Bells and Booming Cannon

The Tennessee Centennial Exposition Saturday night, the event being heralded by the ringing of chimes, the blowing of whistles, the booming of cannon and the sounding of horns in the hands of young and old. There were many thousand of persons on the grounds, the attendance during the entire day having been large.

concerts in the afternoon at the Woman's Building and in the Auditorium, large audiences being present. At night interesting exercises were held in the Auditorium. The building was packed, although the exercises did not begin until 10 o'clock, and were concluded only at midnight. Addresses were delivered by Hon. Tully Brown, G. H. Baskette, Director General Lewis, Mrs. Kirkman, president of the woman's board, and President Thomas. The speakers reviewed the history of the exposition, and congratulated the people of Tennessee upon the success attending the great show. The speaking was followed by a salute of sixteen guns n honor of the first sixteen States of the Union. At midnight the chimes rang, the whistles blew, the horns sounded and the exposition was closed. The total attendance at the exposition

since the opening on the first day of last May is estimated at 1,750,000. President Thomas officially announced that the ex-position will pay out dollar for dollar, and this promptly. The largest day of the exposition was President J. W. Thomas day, Oct. 28. The attendance was 84,-493; this is nearly 30,000 more than the attendance at Atlanta on their red letter day. The estimate of attendance by the chief of the bureau of promotion and publicity was 2,000,000, and his limit would have been surely reached but for the senseless vellow fever scare. Not a single casualty occurred at the exposition during the six months of its existence The order maintained at the exposition was magnificent.

Dr. Charles W. Dabney, president of the Government commission, on behalf of all the Government officials sent a long communication to the executive commit ee, in which he paid high praise to President Thomas, Director General Lewis and Chief of Promotion and Publicity Herman Justi, for the great work performed by them and also thanking them for their uniform kindness to everyone connected with his department.

HAS IT COME AT LAST?

Is This California Treatment the Long-Looked-For Consumption Cure?

Sixteen consumptive patients, who had been healed by Dr. Joseph O. Hirschfelder's lymph, called oxytubercu were examined last week at Cooper Medical College, San Francisco, and a council of the best physicians decided that in every case marked improvement had occurred, and that in some a cure was sub-stantially effected. One of the worst cases was that of Thomas H. Williams, a wealthy young horseman, to whom was allowed six months only of life by Chicago experts. He was so much reduced when he began that he panted at the least effort. Now he can walk five miles with ease or run up stairs.

Dr. Levi C. Lane, founder of Cooper College, said in regard to Hirschfelder's cure: "I am absolutely certain that Dr. Hirschfelder has made one of the greatest discoveries of modern times. umption cure is marvelously effective At a meeting of the faculty of Cooper Medical College I appointed a committee to investigate the cure. The committee consisted of nearly all the members of the faculty. Sixteen of Dr. Hirschfelder's patients were examined. Their oral statenents were taken. Some of them were stripped and careful, minute physical examinations were made. Fourteen were found completely cured, and the other

two showed marked improvement. the cure that has been made by a committee of doctors, but when Dr. Hirschfelder announced his discovery last April to the State Medical Society, forty persons whom he had been treating with his cure sat in the hall for three hours and not one of them coughed during all that time, though they had had consumption in the first, second and third stages, before treatment began. Some of the patients who were cured came from long distances to give their evidence to the committee on account of their gratitude They are from 21 to 35 years old, and among them are women as well as men. It had been demonstrated with the micro scope in each case that they were infect ed with germs of consumption before treatment began. It was shown that these germs were absent before treatment

was ended and afterward." Dr. Hirschfelder prepares his lymph from veal in which tuberculine is injected, and he appears to have solved the problem which Koch attempted to solve. He has spent \$30,000 in three years on his

SOUTHERN TRADE PROSTRATED By the Yellow Fever Bugaboo in Many of the States.

A very distressing state of affairs exists in the States of Alabama, Mississippi and Louisiana on account of the yellow fever ague. These States have quarantine against each other. Commerce has been almost entirely abandoned in the southern half of these States and the railroads have practically ceased running. The plague coming at the beginning of the cotton marketing season will work an injury that it will probably require several years to repair.

The panic that follows the announce ment of a case of yellow fever in a Southhemispherical roof of the cupola, and ern town cannot be imagined elsewhere This disease is the Southern bug boo broad at the bottom and narrow at the It is a mysterious malady that travels al most entirely by night, and the physicians have never learned much about it The disease in each epidemic is so differ ent in its manifestations from what it was in preceding epidemics that the physicians are almost invariably misled in diagnosing the first cases that appear, and the plague is er dereig in most places be fore it is recognized as yellow fever.

This has been the experience of almost every city that has een affected this year. Montgomery, Ala., had about fifty cases, it is believed, before the existence of the disease was announced by the Board of Health. Under the State quarantine law every town, city, hamlet and community stood quarantined against Montgomery. The people became panic-stricken at once. The trains from there had to pass through the State without stopping, but as rapidly as they could be filed into stations they were loaded down with passengers. The mad rush has conprosecution upon a charge of malicious tinued almost up to this time.

Told in a Few Lines. William Carr, a farmer of Liberty, Mo., was arrested on a charge of having drowned his 2-year-old daughter. The supposed grave of Eve is visited by over 40,000 pilgrims in each year. ecuting attorney of the county strove | Those people will "never go back on mother

COMPOSED OF SOCIAL OUTLAWS Something About the Fereign Legion

of the French Army. No questions are ever asked of the nan who wishes to become a "biribi," or member of that so-called foreign legion of the French army to which is nvariably assigned the most dangerous duty in war, and which, as a rule, leads a forlorn hope. Whenever there are hardships to be borne to which the authorities do not care to expose the The events of the closing day included regular line regiments the foreign legion is invariably selected.

Unlike other French regiments, it is

entirely composed of men who have voluntarily enlisted. Some are French, but half of the corps are foreigners. A number of Americans and Englishmen are in the legion. There is scarce ly a man in the brigade who has not a history of a more or less romantic and frequently dramatic character. Thus in one company were found a Rouman ian prince, who was under suspicion of having murdered his brother; an Italian lieutenant colonel of cavalry, bearing an illustrious name, who had been disgracefully dismissed from King Humbert's army for cheating at cards; a Russian nihilist prince, who had escaped from Siberia; an ex-canon of the Cathedral of Notre Dame, Paris, who had been suspended from his ecclesiastical functions for immorality; an Engish ex-major of hussars; and a German count, who had not only served as lieutenant colonei in the First Regiment of Guards at Rerlin, but who had also held a position on the military staff of the late Emperor of Germany.

Eight thousand men constitute the brigade known as the foreign legion. and of these at least 5,000 are men of education and breeding. All these men erve as simple privates in the ranks and are subjected to the iron discipline for which the corps is celebrated. In no other European army are the punshments so severe as in the foreign legion. Composed as it is almost entirely of social outlaws, men who seek oblivion and court death, it is not astonishing that the utmost severity is necessary to preserve discipline. The slightest offense or act of aggression sgainst a superior officer is punished with death.

When a well-behaved legionary is killed a lock of woman's hair or faded portrait is usually found nearest to his heart. It frequently tells better than words why the man sought oblivion in this brigade of dare-devil soldiers.

Many of the best-known names of France have figured at the head of these regiments, among them, for instance, being those of Marshal Bazaine, General De Negrier, General Dupin, who so distinguished himself by his cruelty during the guerrilla warfare in Mexico, and last, but not least, the brilliant Count De Malaret.-Bosten Post.

JAPAN'S GREAT ENTERPRISE IN AMERICA.

LARGE APPROPRIATION BY IM PERIAL DIET.

To Inform Americana How to Make Tea.

Several months ago, the Japanese Ter Guild sent to this country a special commission, composed of Mr. S. Mitsuhashi President of the Shizuoka Prefectural As embly, and Mr. J. Ohara, member Japanese Parliament, to investigate the condition of the Japanese tea trade in the erate with Mr. T. Furuya and Mr. T. Mizutany, the American representatives of the Japanese Tea Guild, in giving put licity to the merits of Japanese Teas and the method of preparing them for drinking which would insure the best results.

Mr. Furuya and Mr. Mizutany are planning to open Tea Bazars in many of the principal cities in the United Stales and Canada, where ladies can enjoy a cup of fine Japanese tea made by experts, and at the same time receive instructions which will enable them to make it equally well at home. More than half the Tea consumed in the United States and Canada is of Japanese growth, yet, the majority of Americans apparently do not understand how to prepare it so as to develop the delicious qualities which it contains. It is believed by these gentlemen that, when Americans are in possession of the secret of making good ten, the consumption in this country will fully equa! that of Europe in proportion. The Japanese Government has appropriated a large fund to ait the Japanese Tea growers and Tea merchants in prosecuting this educational work, and it is hoped that American endies will be apt students. The main Bureau of the Japanese Tea Guild has issued an official recipe for making Japanese Tes, the translation of which is as fol-

First-Use a small, dry and thorough ly clean porcelain teapot.

Second-Put in one tenspoonful of ten leaves for each cup of tea desired. Third-When using Japanese teas, pour on the required quantity of fresh boiled water, and let stand with closed lid from two to three minutes. Never boil the leaves. In order to retain the natural flavor. Japanese tea leaves should be kept in tight can or jar, free from moisture. Note.-To thoroughly enjoy the natural, delicate and sweet flavor of Japanes Teas, neither sugar nor cream should be

"Say Aye 'No' and Ye'll Ne'er Be Married." Don't Refuse All Our Advice to Use

SAPOLIO

I have recently read of four cases where Ripans Tabules relieved people from severe suffering which they experienced from the accessity of living in an impure atmosphere. First, there was a man who kept a so-cent lodging-house in the Bowery, New York. He found that a Tabule taken now and then kept him from getting sick in that polluted atmosphere. Then there was a man who worked in a coal mine in Ohio, where the great distance under the hills made it impossible to get pure air, the air being forced to the men by great fans which would sometimes cease their motion on account of breaks in the machinery and then the air would become very bad indeed, causing pains in the head, dizziness and fainting. This man found a Ripans Tabuletaken at such a time would preserve him from the pain he had previously experienced. Another miner, well known in Scratton, Pa, suffered from the foul atmosphere he breathed for so many years in the miner, resulting there from the gases and damp. "My stomach suffered most," said he. Finally he was induced to make trial of Ripans Tabules, and was so much henchized that he now makes a practice of carrying a few of the magic Tabules in his pocket, so as to be able to swallow one at the first sign of approaching trouble. The fourth case is that of a Philadelphia tailor who had charge of the manufacturing department, and was obliged to spend hours at a time in the pressing, sponging and froning department in an overheated room whete the atmosphere is very heavy and disagreeable. This resulted in giving him frequent headsches, from which he sometimes suffered great torture. The medicines prescribed by his physician brought no relief, and he was, he said, on the verge of despair when a friend one day advised bilm to try Ripans Tabules. Ho did so and the result was that the first two Tabules wrought with him an almost magic change. "I escape all headaches now," he writes, "and no matter how hot the room is, one Tabule does away with all suffering. I always carry some with me for an emergency and c
